Every few years we publish a resident directory for our 100 homes in the development. This is a great way to get to know your neighbors and the people in your Jamestown neighborhood. It is a handy resource for playgroups, friends, babysitting services, lawn care services, and home businesses. You can give as much or as little information as you wish and if you wish to not participate, only the publicly available information will be shared (*name, address, phone*). This directory is for Jamestown neighborhood use and NOT to be used for solicitation purposes. We ask our residents not to abuse this information and to be respectful of your neighbors. Directories are available at the Jamestown Annual Meeting in November or contact a board member. Thanks for sharing your information and making this neighborhood great!
